

## MHPN Participates in Archaeology Day

Archaeology Day was held on October 19, 2019 at the Michigan History Center. MHPN joined archaeologists from across the state to talk about their work, show artifacts and answer questions. Many activities were offered throughout including pottery making, throwing a spear with an atlatl and watching a flintknapper make stone tools. MHPN provided materials to construct a paper building and a historic preservation Junior Ranger activity book from the National Park Service. Participants even brought their own artifacts to gain additional information from archaeologists. Over 1,100 participated in the event.

Plan on joining MHPN, the Michigan History Center, Michigan Department of Natural Resources, Michigan Archaeological Society, Conference on Michigan Archaeology and the Michigan State Historic Preservation Office for Archaeology Day 2020 on October 24th.
