

# Historic Restoration Workshop Series

These workshops are designed to help people see the business benefits of learning historic restoration skills - through doing it themselves, knowing enough to hire the right contractor, or to start/enhance their own business with historic restoration practices. Join us to explore the wonderful world of historic structures in the Kalamazoo Valley region.

*Check out the first 2  
workshops in the series:*

**Intro to  
Historic Preservation  
Building in the Style**
