Selection Process

NPS personnel and qualified Federal employees will review all complete proposals using the criteria outlined below. Reviewers' evaluations are based solely on the material provided in the application. **Additional materials not specifically required by the application, and materials sent separately from the application, will not be considered.** A summary of the review panel comments may be provided to the applicant if requested after the grant process is complete. Panel recommendations will be made to the Secretary of the Interior who will select successful applicants and forward to the House and Senate Committees on Appropriations. NPS will conduct risk assessments on all projects prior to funding. Matching funds are not required, but may be considered as part of the evaluation process.

Evaluation and Selection Criteria

Project descriptions must address, and applications will be rated on, each of the criteria listed below. NPS will evaluate and consider only **complete** applications that separately address each of the five criteria. All criteria are rated equally. You are required to provide a detailed narrative of these elements using the project description and budget justification worksheets.

- 1. Significance:** Describe the historic resource(s) in the proposed project that played a role in the African American struggle for civil rights. Describe the community and the historic resources affected by this project including its significance and whether they are listed in the National Register of Historic Places and/or designated at the state, tribal, or local level. Discuss how your project will help identify and preserve places seminal to the story of African American civil rights.
- 2. Need/Urgency/Threat:** Describe the need, urgency, and threat the project addresses and how the activities are necessary and will mitigate that threat. Discuss how the project is the next logical step toward the resource's preservation.
- 3. Feasibility:** Describe all tasks and their results. Discuss your timeline (located below) and budget justification (separate document) to show that costs are necessary, reasonable, and allowable. Demonstrate how you will successfully complete the project within the given time frame (2-3 years) and with the given resources while meeting all federal requirements and guidelines. Briefly describe who will be involved in carrying out the project and their qualifications, attach resumes/CVs as applicable.
- 4. Sustainability:** Describe the impacts of the project after completion, including long lasting effects. Describe the public-private partnerships and community engagement involved in the project and how these partnerships will sustain and continue to support the resources after the grant project is complete. For Preservation projects, describe the plan for continued maintenance. If previously funded, please describe the progress made to date.
